

AtmoSpHear

The Project Ghanti is a SpHear initiative in association with ICHF & THF, where everyone suffering from mild to severe hearing loss is able to get the requisite treatment and rehabilitation at costs subsidized to an unprecedented level.

GHANTI

Switch On! is a series of outcome videos produced exclusively by SpHear with the specific purpose of instilling hope and courage among those facing Deafness.

SWITCH ON!

'SpHear2Ear' a parental Counselling program driven by parents associated with SpHear to ignite & educate the new parents on board. It is a unique counseling method whereby parents of children who have gone through various types of hearing loss treatments at SpHear, share their experiences with families who have recently faced a hearing problem or are undergoing rehabilitation.

SpHear Cochlear is our personalized service. It is a team counseling & consultation meeting regarding decision for Cochlear Implant. It is a special clinic where all the team members sit together to take a decision for Cochlear Implants of a child or adult.

SpHear Speech & Hearing Clinic was established by Neevita Narayan, a Speech & Hearing graduate from All India Institute of Medical Sciences (AIIMS).

SpHear offers personalized hearing, speech and communication services, in addition to the latest hearing device technology.

It is dedicated to helping all people, regardless of their age, to improve communication and vocational independence for life.

As a part of SpHear's mission, we provide comprehensive and professional audiological care, from prevention to rehabilitation, for individuals of all ages with speech and hearing concerns.
